INTRODUCTION

Headquartered in Dubai, UAE. Makin Technology Solution LLC and Rayyanco Business System is founded in 1986 as Business Solution provider but has since grown to incorporate a wide range of service and business solutions much needed by companies today.

Makin Technology Solutions L.L.C is a diversified technology company serving customers and communities with innovative products and services. We plan for the future and prevent the unthinkable benchmarks a company's actual results against other companies with similar size or industry characteristics as well as industry best practices. Assessment results identify opportunities to reduce IT costs in areas of product selection, maintenance, personnel and redundant or inappropriate systems without sacrificing or jeopardizing important business initiatives or objectives giving companies the ability to do more within fixed or reduced budgets.

Makin Technology Solution is one of few pioneers which introduced the compatible PC in Pakistan and later on Card Personalization systems was Introduced in 1996; and provided the opportunity to financial sector to Purchase Plastic Cards " ATM Cards / Debit Cards/ Credit Cards" from Local Vendor as an authorized distributor.

Automatic Data Capture products, barcode readers and all kind of Card readers and their installation are one of specialized segment.

Makin Technology Solution with its experience and quality services proved to be the leader in Bank Branch Automation, Queue Management Systems, Bank essentials, Cash Handling Machines, Cash sorting and processing machines with advanced features has proven track record in Financial Sector of Pakistan. Our Hardware and Software team is equipped with advance tools, technology and creative ideas for innovation and capable of customizing the requirement and needs in the field of database management, conversion and application development with full after sales and support.

The Makin Technology Solution team of highly experienced professional's approaches each problem from a technical, strategic and cost effective angle, providing a customized cost-efficient solution allowing companies to attain their business goals and gain a competitive advantage.

MTS success is based on the vision of its President, Muhammad Ashraf Ahmad , Whose mission is to provide profitable growth through superior customer services, Innovation, cost effective, cutting edge IT Solutions quality and commitment to small and Mid- Sized companies. MTS's aligns their Solutions to a company's business goals and uphold the highest standards in their quality of work.

MTS approaches IT with a Business Management mindset aiming to align a company's business goal with the right IT solutions. MTS recognizes that this is the future of IT. IT departments today more than ever before, need to add value by helping the business reaches its goals and objectives through the use of systems and technology that align with the business drivers.
